DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-68, drawn to a mesoporous polymer hydrogel overlaying an electrode.

Group II, claim(s) 69-85, drawn to a method of making a hydrogel permeation layer.

2. The species or groups listed above do not relate to a single general inventive concept under PCT rule 13.1 because, under rule 13.2, the species lack the same or corresponding technical features for the following reasons: the specie of group I do not relate to the special technical feature of group II, which includes the process of making the membrane layer including a mold, removing porogen, addition of surfactant and surface properties, crosslinking and heating conditions, which are included in the limitations of claims in group II, are not included in the technical features of group I.

3. A telephone call was made to Polaphat Veravanich on 9/22/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1723

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
